

anteriorPush/include
/estoque/produto.hpp

```
graph TD; A["anteriorPush/include<br/>/estoque/produto.hpp"] --> B[iostream]; A --> C[string];
```

The diagram illustrates the dependencies of the file 'anteriorPush/include/estoque/produto.hpp'. It is represented as a root node in a gray box at the top. Two blue arrows point downwards from this root node to two child nodes, 'iostream' and 'string', which are each enclosed in a white box with a gray border.

iostream
